

Rescue, Relief, and Resistance

THE JEWISH LABOR COMMITTEE'S
ANTI-NAZI OPERATIONS, 1934–1945

CATHERINE COLLOMP

“

Catherine Collomp's study is an amazing work of scholarship based on extensive archival research. Fascinating to read, it recognizes the heroic contributions of the Jewish Labor Committee to the struggle against Nazism. Impressive in every respect, it reveals the efforts of many unsung heroes, and should be regarded as an essential Holocaust source

– Robert D. Parmet, professor of history, York College of The City University of New York
